Malpractice claims are a very real risk for law firms today. CNA claim statistics indicate that more than 50% of these claims arise from common practice areas, such as representations in business transactions, personal injury and business litigation, and real estate closings.

CNA has developed a seminar that helps lawyers analyze the attendant risks of common client services and considers both ethical obligations to clients and practical means of managing risk during the representation. Since 1990, CNA has been an industry leader in training lawyers on preventing malpractice claims, presenting more than 1,000 seminars nationwide.

The “Shifting Landscapes” seminar has been approved for 3.00 hours of CLE and qualifies you for up to 7.5% credit on CNA professional liability insurance premium for two years.
